

Designing and Facilitating Impactful Student Learning Experiences: BC Professional Learning Framework

INTENDED OUTCOME

To assist post-secondary educators in having a pathway for developing and facilitating the growth of self-directed, self-regulated, independent learners using effective strategies for achieving authentic, deep and meaningful learning.

New Educator Teaching Academy

Retreat for new or fairly new educators to explore leaderly thinking about what it means to be a professional educator and how to build a successful career E.g., philosophy of teaching exploration, key concepts on how students learn, teaching perspectives analysis, misconceptions, reflections, managing difficult conversations, smart teaching from get-go, work/life balance, starting off on right foot with sustainable practices etc.

Experienced Educator Teaching Academy

Retreat for experienced educators to explore their practice and engagement in learning at a much deeper level. Topics such as exploring growth and development of later career educators, lessons learned over the years, reinvigoration of new learning practices, contributions to the professional community, scholarly discussions and explorations of student learning, management of self/time.
